

**A TEAM ALIGNED BEHIND A VISION  
WILL MOVE MOUNTAINS** *“Kevin Rose”*

## ISO Certification

I would like to thank our engineers and management for their cooperation and transparency during the ISO external audit. We, Nakhoul Corporation, believe that improvement comes from credibility so the trust and the transparency are vital vitamins to our success.

Aline Nakhoul  
Auditing and organizational Human Development Manager

*Annual International Surveillance audits by TÜV NORD*

## ISO 9001 Benefits

1. Improvement of the company's reputation by ensuring customer trust.
2. Creation of chances by entering international markets as a result of the improvement of the image and credibility of the organization.
3. Reduction of production costs due to improvement of resources and on time management.
4. High involvement of personnel in quality management.
5. Increase of customer satisfaction.
6. Constant improvement of departmental processes due to continuous monitoring and evaluation of the quality management system aligned with the product CE marking.

# Our company's organizational structure

For over 40 years, and starting from the receipt of raw materials until the forwarding of the finished product, Nakhoul Corporation guarantees the quality of its products by the strict application of a constant quality control system, and its dynamic and professional team beginning by the:

## 1. General manager

Our general manager is in charge of running the main day-to-day business activities.

---

## 2. Auditing and Organizational Human Development Department

The responsibility of our AOHD department is to monitor, audit and evaluate all other departments' processes and objectives in order to ensure the good application of the "QMS" quality management system of the company and to fortify the company growth by implementing the needed marketing strategies and by creating effective HR training programs for employees' development.

---

## 3. The production department

Production is our functional area responsible for turning inputs into finished outputs through a series of production processes. Our Production Manager is responsible for making sure that the factory is running smoothly and all automated manufacturing machines are fault free.

## 4. The Operations Department

Our operations department is responsible for running business successfully.

---

## 5. Sales Engineering Team

Our sales engineer sells products and/or services to businesses. They have extensive knowledge of the products' parts and functions and understand the scientific processes that make these products work.

---

## 6. Site Foreman

A key member of our execution team, responsible for organizing construction works onsite. They perform a pivotal role in the success of a project.

## 7. Commercial department

Our commercial department responsibility is the identification and development of business opportunities and the profitable management of projects and contracts, from inception to completion.

---

## 8. Accounting and Finance department

Our accounting department provides accounting services and financial support, records accounts payable and receivable, inventory, payroll, fixed assets and all other financial elements. The department's accountants review the records of each department to determine the company's financial position and any changes required to run the organization cost effectively.

---

## 9. After Sales

Our After sales department helps our customers by providing them with all necessary information and by fulfilling the maintenance to the purchased systems.
