

NAK YOUR VITAMIN C "A Piece of Art"

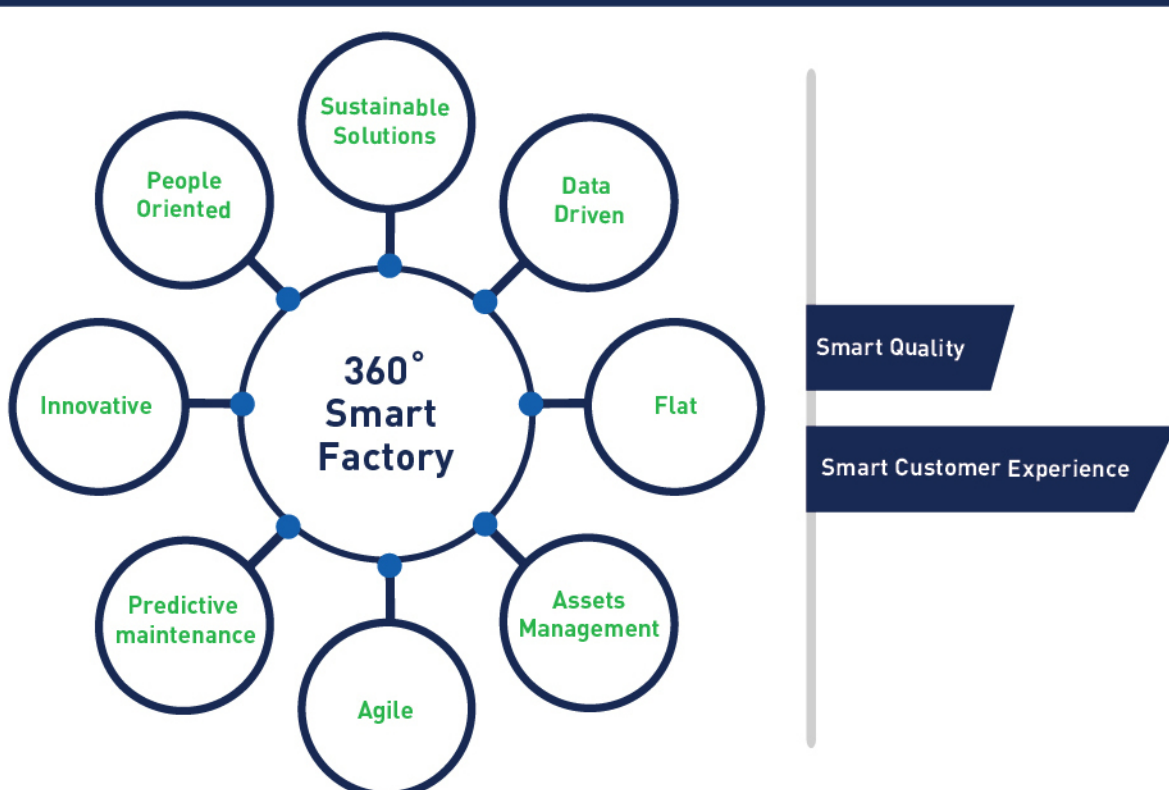

IMPROVING THE AIR YOU BREATHE

Nakhoul Corporation's core business is to conceive, manufacture and install high quality air distribution products. The main objective is to guarantee the client the best adequacy between the obtaining of a good interior air quality (IAQ), the optimization of the energy losses and the wellbeing.

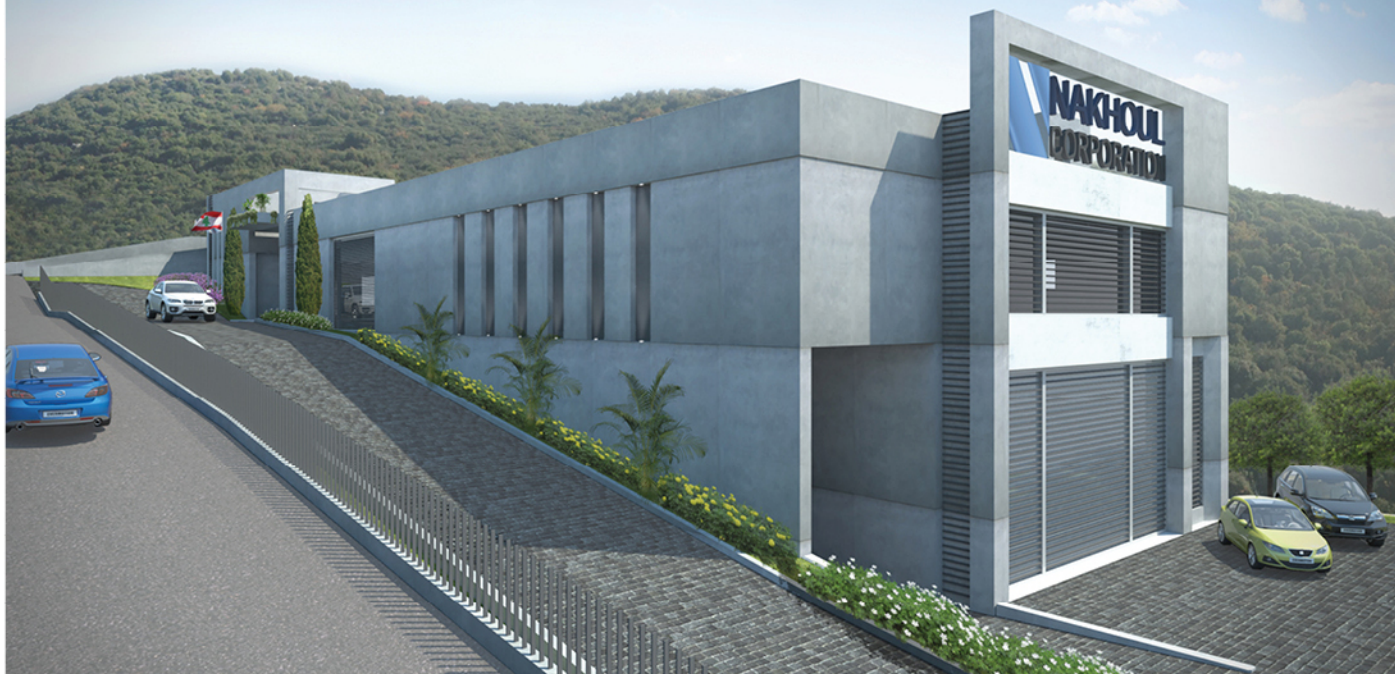

Our experience, know-how and our up-to-date machineries keep us on a permanent development in the performance and the aestheticism of our line of products.

At Nakhoul Corporation, we take pride in our excellent products, quality management system, cost effectiveness, and delivery cycles.

A 360- DEGREE M&M PERSPECTIVE LEADS TO A SMART MANAGEMENT, SMART MANUFACTURING

NAKHOUL CORPORATION AT A GLANCE

Manufacturing the future is the next era of global growth and innovation. Manufacturing remains a critical force in both advanced and developing economies. Having a strong domestic manufacturing base is vital to the country's economic future. These include advanced and specialty materials, new machines, experience and precision mechanical devices and provide employment opportunities.

We are looking forward that our products are manufactured faster and with higher consistency, and the products we are able to develop are increasingly complex and have greater value to consumers.
